FILE: Training

MEMORANDUM FOR:

[Redacted]
Executive Assistant to the DCI

SUBJECT:

External Training Opportunities for
Agency Employees

1. This is in response to your request for information concerning external training opportunities for Agency employees. The criteria for sponsorship of training at non-CIA facilities are established by regulation [Redacted]. Training may be full- or part-time and may be obtained at interagency training facilities, military bases, universities and colleges, commercial firms, or by enrollment in the Agency's Off-Campus Program or correspondence courses. The opportunities are limitless.

2. During Fiscal Year 1979, the Agency approved 4,161 requests for Agency employees from all Directorates to receive various types of external training. The duration of these programs varies from one day to an academic year. The number of facilities is vast, and the course offerings are extensive. It is literally impossible to list all the opportunities available, but I hope the attached samplings will indicate the scope of their possibilities.

Donald E. Smith
Director of Training

LIBRARIES

There are many thousands of libraries in the United States, ranging from the small town library of a few hundred volumes to the library in the large city where the number may be reckoned in millions. As limitation of space makes it impossible to list all these, we give a selection classified as follows:

National Libraries.

Government Libraries.

Public Libraries (over 500,000 vols.).

Special Libraries.

State Libraries (over 400,000 vols.).

University Libraries.

NATIONAL LIBRARIES

Library of Congress, The: Washington, D.C. 20540; f. 1800; contains over 73 million items, including 18,240,295 books and pamphlets; the operations, activities and personnel of the library are divided into seven departments.—Administrative, Reader Services, Research, Congressional Research Service, Processing, Law Library and Copyright Office.

Librarian: Dr. DANIEL J. BOORSTIN.

Collections include:

Books for the blind and physically handicapped: 13,000 books in braille, on recorded discs, and on tapes, available in more than 150 co-operating regional and sub-regional libraries in the United States and its territories.

Cartography: 3,583,762 maps, atlases, globes, etc.

Law: over 1.7 million items, including material on American, British, Hispanic, European, Far Eastern, Near Eastern and African Law.

Manuscripts: 32,577,410 manuscripts relating to American history and civilization, including the papers of American Presidents from George Washington to Calvin Coolidge, other statesmen and diplomats, and men and women of letters.

Microform: 2,808,203 microforms.

Music: 3,030,673 items of music and music literature; 676,266 sound recordings on discs, tapes, and wires.

Orientalia: more than 1.3 million vols. (173,030 in Chinese and Korean, 100,888 in Hebrew, 366,012 in Japanese, 101,523 from Near East, and 133,666 from Southern Asia).

Prints and Photographs: 247,467 motion pictures and 8,491,080 photographs, among them early daguerotypes, Mathew Brady photographs, and the work of contemporary photographers.

Rare Books: over 350,000 items, including the largest collection of incunabula in the Western Hemisphere.

Periodicals: includes newspapers, Government Publications and other serial publications.

The Library's priority remains service to the Congress of the United States, but it now performs, in its role as the national library, services to other libraries which include: development of scientific schemes of classification (Library of Congress and Dewey Decimal), subject headings, and cataloguing embracing the whole field of printed matter; a centralized acquisition and cataloguing programme in which publications are acquired worldwide and cataloguing data distributed to other libraries by means of printed cards, machine-readable tapes,

and printed book catalogues; editing for publication a *National Union Catalogue, Pre-1956 Imprints*, which will have 11 million entries for significant holdings of major American libraries; publication of the *National Union Catalogue*, a record of acquisitions by American libraries since 1950; an inter-library loan system; the exchange of duplicates with other libraries; and the provision of advice on technical matters relating to the preservation and restoration of library collections.

Services to the public include: registration of creative work for copyright; use of 2 general and 13 special reading rooms; reference and bibliographic services; research and referral services in science and technology; photoduplication for a fee of items in the collections not subject to copyright or other restrictions; chamber music concerts and literary programmes; lectures and symposia, such as the series in observance of the Bicentennial of American Independence; publication of guides, catalogues, proceedings, facsimiles of rare items in the collections, etc.; sale of recordings of poetry and folk music; exhibits in Library buildings; guided tours. Publs. *Library of Congress Publications in Print* (annual), *Calendar of Events* (monthly), *Information for Readers, Special Facilities for Research* (available upon request).

National Agricultural Library: U.S. Dept. of Agriculture, Beltsville, Md. 20705; 1,500,000 vols.; agriculture and the related sciences; especially collection of botany, zoology, chemistry, veterinary medicine, forestry, plant pathology, general agriculture; Dir. RICHARD A. FARLEY.

National Archives and Records Service: National Archives Bldg., Pennsylvania Ave., Washington, D.C. 20540; the National Archives, created as an independent agency in 1934, was transferred in 1949 to the newly established General Services Administration, in which it became the National Archives and Records Service; it now consists of the Office of the National Archives, the Office of the Exec. Dir., the Office of Records Management, the Office of Educational Programs, the Office of Federal Records Centers, the Office of the Federal Register, and the Office of Presidential Libraries, all headed by the Archivist of the United States. NARS administers a Federal archive system of 23 institutions, including 15 national records centers and 7 Presidential libraries. It selects, preserves and administers Federal Records of enduring value and prescribes standards and methods for the efficient management of current records of the Federal Govern-
